The Only Representative office, Eastman Chemical Korea Ltd.(hereinafter "OR"), being fully aware of the 'The Act on the Registration and Evaluation of Chemicals (K-REACH)', that was enforced on 1 January 2015 in Korea.

With due diligence to support us, importing customer, with the Act, we hereby state and confirm as follows:

Under K-REACH, entities that import or sell more than 1 ton per year of an existing chemical are required to submit an annual report to the Ministry of Environment. This report must include the volume imported or sold as well as the end-use segment code.

Due to the business confidentiality, the OR will be reporting the volume for the products purchased by us from the applicable Eastman Chemical selling entity\*.

In order to be able to do so and to release us from the reporting obligations under the Act, we provide our consent to the OR to report on our behalf for the products as listed in the table on the next page.

**For products with confidential composition only**

Eastman Product Name	Ship-from Country (Importing country)	Total imported from Eastman and cleared volume in kg  Over 2015	End-Use Code
Detailed Use description			

Yours sincerely
