

Recognized for our progress

At Eastman, we do business by creating value through environmental stewardship, social responsibility and economic growth. We believe that how we do business, with our customers and for our customers, is just as important as what we achieve. This same level of discipline extends individually and collectively in the way we manage and operate our business.

As a result, Eastman has been recognized for achievements in the areas of energy and environment, health and safety, financial strength, innovation, and citizenship and engagement.
