

## Responsibility

**Eastman BioExtend™ 30 antioxidant additive offers environmentally compliant product for biodiesel**

A new product for biodiesel fuels offers a complete antioxidant system that is unique to the market. Eastman BioExtend™ increases shelf life and enhances product protection by inhibiting biodiesel's tendency to react with oxygen.

**Results:** Leveraging Eastman's long history of supplying antioxidants across a range of markets, Eastman can help biodiesel producers meet increasing consumer demand for environmentally compliant products without sacrificing the superior performance.
