

Quality products from Eastman for the food market

Eastman Chemical Company is committed to meeting the needs of food processors worldwide by providing quality ingredients that improve foods and beverages.

Eastman Sustane™ SAIB (Sucrose Acetate Isobutyrate), Food Grade, is used primarily in citrus beverages as a weighting agent or flavor emulsion stabilizer to prevent separation of essential citrus oils.

Eastman also manufactures Eastman Tenox™ food-grade antioxidants. They are available in solid form and “easy-to-use” solution formulations containing various combinations of antioxidants and citric acid as an acid synergist.

Other ingredients Eastman manufactures for the food industry, available in food grade/kosher grade, include triacetin, propionic acid, and acetic acid.

Our dependable supply and extensive experience in meeting customer and market needs are backed by a strong manufacturing core competency, excellent technical service, and problem-solving capabilities.
