

Eastman Nature and Wildlife Habitat Center

My Biome

Your Name

Site Survey Data Sheet

Date _____ Time _____

Location _____

Present Weather (Clear, Cloudy, Overcast or Raining) _____

Air Temperature _____ Celsius _____ Fahrenheit

Wind _____ (Which direction is the wind coming from?)

My Biome

As you hike the Eastman Nature Trail place a tally mark next to each biome element you observe.

Animals _____

Insects _____

Trees _____

Vines _____

Flowers _____

My Favorite Biome Animal and Plant

At the end of your hike, reflect back on the different animals and plants you observed while hiking the Eastman nature trail. Record your favorites in the space below.

My favorite biome animal is a _____.

My favorite biome plant is a _____.

Biome Systems

As you hike the Eastman nature trail look for the following systems.

___ Yes, I found a water system.

___ I did not find a water system.

___ Yes, I found a reproduction system.

___ I did not find a reproduction system.

___ Yes, I found a food system.

___ I did not find a food system.

___ Yes, I found an air system.

___ I did not find an air system.

My Biome's Soil

As you hike the Eastman nature trail look closely at the soil. Stop in several places and record your observations.

Stop #1 What color is the soil? _____ What does it feel like? _____

Stop #2 What color is the soil? _____ What does it feel like? _____

Stop #3 What color is the soil? _____ What does it feel like? _____

Stop #4 What color is the soil? _____ What does it feel like? _____

Biome Animals

Draw a picture of your favorite animal you observed while hiking the Eastman nature trail.

Biome Plants

Draw a picture of your favorite plant you observed while hiking the Eastman nature trail.

Human Impact

As you hike the Eastman nature trail, look for evidence of human improvements or destruction of your biome. Record your observations.

Specifically, what did you observe as human improvements in your biome?

Specifically, what did you observe as human destruction in your biome?

Biome Resources

Your biome has many resources for humans and animals. Record your observations of resources for both humans and animals that live in your biome.

Human Resources

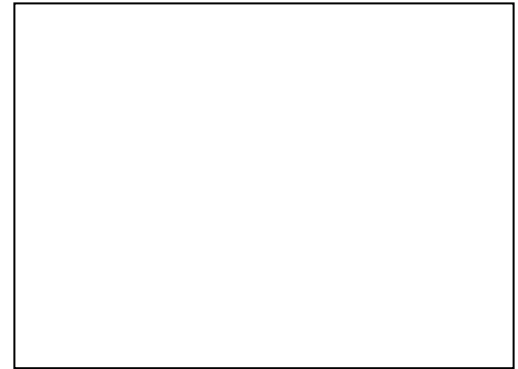

1. _____ 2. _____
3. _____ 4. _____

Animal Resources

1. _____ 2. _____
3. _____ 4. _____

Biome Habitat

There are many habitats within a biome. Select one organism's habitat you observed while hiking the Eastman nature trail. Describe and draw a picture of the habitat in the space below.

Biome Survey

On my biome hike (circle one) I saw...

Animals	None	Not Much	Several	A Lot
Insects	None	Not Much	Several	A Lot
Trees	None	Not Much	Several	A Lot
Vines	None	Not Much	Several	A Lot
Flowers	None	Not Much	Several	A Lot

Biome Facts

Four interesting facts I learned about my biome are:

1. _____

2. _____

3. _____

4. _____
