

Virtual Second Opinions BY Cleveland Clinic

Consult with a Cleveland Clinic Specialist from the Comfort of Home

Your benefits package includes an innovative digital health service that lets you have a diagnosis or treatment plan reviewed by expert specialists from the **world-renowned Cleveland Clinic**, at no cost to you. So you gain greater confidence and peace of mind.

- Draw on the expertise of 3,500 Cleveland Clinic expert specialists in over 550 advanced subspecialties.
- Get a Virtual Second Opinion for yourself or a covered family member.
- Use your phone, tablet, laptop or desktop system.

It's confidential, convenient and cost-free.

How It Works

You'll explain your medical challenge to a Nurse Care Manager who will match you to the right specialist. We'll collect your medical records, including lab samples, scans and more. In about two weeks (sooner if medically indicated), you'll receive a detailed report with your expert's opinion and chat live with him or her to ask questions and learn more.

Become more informed about your health and more certain about your care!
