

# The premier processing additive

**EASTMAN**

The results of insight™

# Eastman CRYSTEX™

insoluble sulfur

With Eastman's multisite network and secure supply enabling our #1 global position, Eastman Crystex™ insoluble sulfur products offer many processing advantages that lead to lower operating costs for our customers. From fewer defects to decreased scrap, Crystex delivers not only critical processing benefits but also enhanced productivity by enabling faster calender speeds and reduced mix cycle time.

With Crystex, you can expect:

- Enhanced productivity
- Proven quality
- Process flexibility
- Maximum yield
