Eastman G™ maleated polyolefins
Superior coupling additives for cellulose reinforcement

Cellulose by-products and waste streams, including newsprint, sawdust, corrugated board, wheat straw, nut shells, bamboo, flax, and hemp, represent a huge untapped raw material resource for thermoplastic composites. Laboratory studies have shown that low to medium molecular weight, maleated polypropylenes can help disperse cellulose fibers or particles into the base polyolefin. Addition of low levels (0.5%–3%) of higher-acid-number Eastman G-3015 polymer results in a substantial increase in tensile strength and other physical properties of the cellulose/polyolefin composites.

Eastman G-3015 polymer is available in 50 lb (22.7 kg) bags or 1,000 lb (453.6 kg) boxes. Bulk bag packaging is available on a made-to-order basis.

Data for cellulose/polyolefin composites containing Eastman G coupler

Eastman G™ polymers are products of Eastman and are protected under one or more of the following U.S. patents: 5,955,547; 6,046,279; 7,408,007; 7,683,134; and their foreign equivalents.
Although the information and recommendations set forth herein are presented in good faith, Eastman Chemical Company ("Eastman") and its subsidiaries make no representations or warranties as to the completeness or accuracy thereof. You must make your own determination of its suitability and completeness for your own use, for the protection of the environment, and for the health and safety of your employees and purchasers of your products. Nothing contained herein is to be construed as a recommendation to use any product, process, equipment, or formulation in conflict with any patent, and we make no representations or warranties, express or implied, that the use thereof will not infringe any patent. NO REPRESENTATIONS OR WARRANTIES, EITHER EXPRESS OR IMPLIED, OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR OF ANY OTHER NATURE ARE MADE HEREUNDER WITH RESPECT TO INFORMATION OR THE PRODUCT TO WHICH INFORMATION REFERS AND NOTHING HEREIN WAIVES ANY OF THE SELLER’S CONDITIONS OF SALE.

Safety Data Sheets providing safety precautions that should be observed when handling and storing our products are available online or by request. You should obtain and review available material safety information before handling our products. If any materials mentioned are not our products, appropriate industrial hygiene and other safety precautions recommended by their manufacturers should be observed.
