

Europe/Middle East/Africa shipping guidelines for Skydrol samples

1. Ship Skydrol samples to the following address via courier services:

Eastman Chemical Company (Solutia UK Ltd)
FAO: Fluids testing
QA lab
Corporation Road
Newport, U.K.
NP19 4XF

2. Provide a commercial invoice/packing list on which the following information must be displayed (see sample format on page 2):

- Sender and recipient information
- Sample name
- Net and gross weights of samples
- Unit price and total amount of samples
- Number of packages
- Note that sample is for laboratory testing only with no commercial value
- Country or origin of the samples

3. Shipping instructions:

- For courier service, ensure the gross weight of the shipment is within 30 kg and that each package is no more than 5 kg/5 L.
- Take photos of samples before shipment and keep them for customs inspection purposes.

4. Labels and packages:

- A preprinted ship-to address label is on the kit box. You may ship your Skydrol fluid sample to Eastman in this box. If you use a different box, remove the label from the original box and adhere it to your new box. The label must be on every sample shipment in accordance with our sampling processes.
- Ship-to address label:

Sample commercial invoice/packing list
