

Barware beware!

Chic Conception uses Eastman Tritan™ copolyester in artistic shot glass.

Stéphane Chicha, owner and creative designer of Chic Conception, trends towards edgy design with fashionable barware made of Eastman Tritan™ copolyester. One of the most talked about designs in the company's extensive line of high-end retail and commercial drinkware is the shot glass in the form of a skull, developed primarily for use in nightclubs, cafés, hotels, and restaurants. Likened to a work of art, the unique skull shot glass—available in six playful colors—has a luxurious feel and its profile makes an ergonomic finger hold. Chicha touts the attributes of BPA-free Tritan, including its design flexibility, adding that Tritan “also provides the toughness and dishwasher durability that our products and customers demand.”

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

Made with Eastman Tritan™ copolyester, Chic Conception skull shot glasses are available in six fun colors.
