

Sleek, stackable storage solutions

Robert Welch launches a line of chic storage jars made with Eastman Tritan™ copolyester.

Robert Welch, a distinguished British brand with nearly 60 years of experience making cutting-edge home products, was awarded the 2014 Good Design Award by The Chicago Athenaeum Museum of Architecture and Design for its novel line of Signature storage jars made with Eastman Tritan™ copolyester. Since aesthetics and functionality share the stage at Robert Welch, using a food-safe, BPA-free material was a priority. For kitchen use, good impact strength and the ability to withstand repeated dishwashing are also paramount. Tritan provided these attributes while offering glasslike clarity and aesthetic quality. The neatly stackable, elliptical-shaped Signature storage jars come in three sizes and feature silicone and stainless steel lids for an airtight seal that keeps food fresh.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

Made of Eastman Tritan™ copolyester, Robert Welch Signature storage jars illustrate the company's exceptional product design, quality, and functionality.
