

## Culinary delights in plain sight

*Groupe SEB selects Eastman Tritan™ copolyester for its new Multi-Delices yogurt maker.*

France-based Groupe SEB, a world leader in small appliances, chose Eastman Tritan™ copolyester over polycarbonate for its 3-in-1 Multi-Delices yogurt maker. Consumers prefer a product that clearly shows off the delicious creation inside; and because it's made for families, the Multi-Delices needed to be safe, easy to clean, and impact resistant. That's why Groupe SEB turned to BPA-free, food-safe Tritan—with its superb clarity and toughness. By choosing Tritan, the company gained access to Eastman's valuable expertise.

"We've had excellent technical support from Eastman throughout the injection molding and verification processes," said Patrick Charles, project manager, Groupe SEB.
