EASTMAN

Stylish, safe, strong, yet beautiful tableware

Ogapora switches to Eastman Tritan™ copolyester for beverageware.

Known for fresh, aesthetic design of tableware products, the Spanish company Ogapora collaborated with Eastman to enhance its drinkware line that includes colorful glasses, stemware, tumblers, and pitchers. "We selected Tritan because it won't crack, break, or become hazy in the dishwasher," said Guiomar Alvarez, partner and general manager, Ogapora. "Additionally, we sought to address our customers' concerns about products they use on a daily basis by selecting a BPA-free material. Customers also benefit from the material's toughness, clarity, and aesthetic appeal, as Tritan has a look similar to glass." Ogapora caters to consumers who want a stylish and practical table setting indoors or out, and its customer base includes luxury hotels with poolside dining and beachside restaurants.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.
