

Blooming appetites

Deeuno chooses Eastman Tritan™ copolyester for their Flower Toddler Tableware.

Whether for baby food or gourmet dining, appetites can always be enhanced by delectable presentation. South Korean-based Deeuno makes eating more productive and fun for toddlers with the whimsical Baby Bowls & Sippy Cup set made of Tritan. In rounded embossed shapes, the creative Deeuno design elevates the mealtime experience with amusing graphics in 3D image technology available as a downloadable app. Mom's or Dad's phone simply scans the QR code on the Flower Snack Plate, and blossoms appear to grow into a fancy world; while airplanes, cars, and submarines change colors at the touch of a tiny finger. The unbreakable, BPA-free, and dishwasher-safe tableware is both attractive and practical—and it highlights mealtime fun as the best recipe for toddlers.
