EASTMAN

Homemade and healthy

The Beaba food cooker is made with clear, durable Eastman Tritan™ copolyester.

Even with today's busy lifestyles, moms and dads want the best when it comes to nutrition and health for their little ones. Enter the Beaba Babycook Pro for making delicious, homemade baby food from scratch. Beaba's sleek design features a one-handed operation for steaming, blending, defrosting, and reheating all in one. With such ease of use, healthy foods can be steamed and pureed in 15 minutes or less and the large 4.7 cup capacity allows for freezing and reheating extra portions for later use. The Beaba design combines stainless steel and Eastman Tritan, so its materials are free of BPA, lead, and phthalates. With Beaba Babycook, healthy recipes with fruits, vegetables, and meats can be tailored to baby's taste and mealtime is worry-free.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

Made with Eastman Tritan, the Beaba Babycook Pro accents any countertop in a soothing latte mint color scheme.
