EASTMAN

Pressing toward perfection

Meyer Corporation uses Eastman Tritan™ copolyester in its top-of-the-line French press coffee makers.

BonJour, a division of top cookware distributor Meyer Corporation, is a trendsetter in creative culinary products. BonJour's French press coffee makers are sold in the finest gourmet and department stores. The company's Ami-Matin French Press Coffee Maker, featuring a carafe made from Eastman Tritan™ copolyester and a stainless steel filter screen, was made for consumers with discerning tastes who demand high quality. BPA-free Tritan was chosen because it provides the clear elegance of traditional glass carafes but is also lightweight and shatter-resistant. It gives the bistro-style coffee maker the perfect balance of clarity, toughness, and heat and stain resistance to set it apart from the rest.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

The Ami-Matin French Press Coffee Maker showcases the clarity and durability of Eastman Tritan™ copolyester.
