

Sandwich solutions

Contain This! manufactures one-of-a-kind sandwich container with Eastman Tritan™ copolyester.

Contain This!, a company based in San Mateo, California, created a nifty tote called Perfect Sandwich—a reusable food storage container that keeps sandwiches fresh longer. Made of clear, BPA-free Eastman Tritan™ copolyester, Perfect Sandwich has a versatile divider to keep the bread separate from the wet ingredients and a removable PerfectCHILL cooling device to keep perishable items chilled for up to five hours. Tritan's rigidity allows a watertight seal, and its toughness can withstand daily use and repeated washings. "After exploring several options, we found Tritan not only meets our performance and engineering requirements, it also gives us confidence in the quality of our one-of-a-kind product," said Will Archie, founder and chief executive officer of Contain This!.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

No more soggy sandwiches, thanks to Contain This! Perfect Sandwich container made of Eastman Tritan™ copolyester.
