

Tzeng Shyng for your shindig

Eastman Tritan™ copolyester is used in top-of-the-line drinkware.

Adding to its popular tableware and melamine products, Taiwanese injection molder Tzeng Shyng has designed the latest in fashionable beverageware, which can be found at major retailers. Made with Eastman Tritan™ copolyester, Tzeng Shyng's stemmed and stemless drinkware line is made to resist breakage, chipping, and cracking. Customers also love that the food grade, BPA-free Tritan won't cloud or discolor from dishwasher use. "It's the only material that provides the combination of clarity, durability, and toughness that consumers want in products they use often, put through the dishwasher, and can use by the pool or on the patio," said Kevin Newman, sales and marketing senior vice president of Tzeng Shyng.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

Tzeng Shyng drinkware is made with Eastman Tritan™ copolyester, a new-generation copolyester that offers superb clarity and dishwasher durability and is free of bisphenol A (BPA).
