

Think Big. Go Large.

Eastman Aspira™ EB062 copolyester is ideal for large multiserve containers that need a little more muscle. Big. Bold. Unique. With the thickness, look, and feel of glass, packaging made with Aspira EB062 makes big beautiful . . . but lighter for reduced shipping costs.

Why Aspira?

Aspira EB062 enables creation of attractive, large handleware containers with improved manufacturing economics. Benefits include:

Clarity—Create eye-catching packaging that showcases your product.

Design freedom—Make it big. Make it curvy. Make it strong. Make it not just unusual—make it outstanding.

Processability—Can be processed at industry standard speeds on any extrusion blow molding platform—shuttle, wheel, or reciprocating screw.

Toughness—Provides both impact strength and chemical resistance, creating very durable containers.
