

Clarity & Color

The clear choice for cosmetics packaging

Breaking the limits of color and processing

Eastman Cristal™ copolyester is a high-flow product that is designed and engineered specifically for cosmetics packaging applications with a luxurious feel. With its unsurpassed color and clarity and an unmatched ability to mold thick parts, Cristal is clearly a well-suited copolyester for premium cosmetics packaging.

Color

- Extreme clarity with high gloss and color neutral
- Improved light stability

Processing

- Thin or thick wall with processing versatility to enable production of complex shapes
- Suited for single- and dual-shot molding due to its lower processing temperature, very slow crystallization, and high flow

Chemical compatibility

- Great for skin care containers and caps, color cosmetics, and fragrance caps

Secondary operations

- Compatible with common decorating technologies such as silk screen, tamper evident, and hot stamping

Eastman CRISTAL™

copolyester

Our technical experts and Eastman Cristal™ copolyester can help transform concepts into containers. Learn how by calling 1-800-Eastman.
