

COOL PRESTIGE

Dapy chooses Tritan™ from Eastman for its luxurious ice buckets.

Founded by Pierre-Yves Azuelos and his brother in 1980, Dapy is a pioneer in crafting luxurious packaging and accessories from transparent plastic. The company's strength lies in its capacity to imagine, create, and develop packaging that enhances brand identity and prestige—making their clients stand out like no other. Take for instance the clear Chrome ice bucket that can keep up to three bottles chilled for hours, manufactured for premium Belvedere Vodka. The original material, PMMA, did not prove strong enough to withstand the extensive dishwashing, stacking, and mishandling.

Dapy chose to upgrade to Tritan because of its shatterproof and break-resistance attributes, making it ideal for busy nightclubs and outdoor entertaining. Tritan, with superior temperature and chemical resistance, won't crack, craze, or haze—even after many cycles through a commercial dishwasher. In addition to the ice buckets, Dapy also uses BPA-free Tritan for blow-molded wine and champagne glasses. So brands and customers can confidently say "à votre santé!" whenever Tritan is part of the service.
