

## ANDRIOLO CONTINUES ITS COMMITMENT TO THE ENVIRONMENT WITH R3 BOTTLES MADE FROM TRITAN™ FROM EASTMAN.

***The company's passion to "Reduce. Reuse. Recycle." drives the success of reusable R3 bottles.***

Andriolo is committed to eliminating single-use water bottles. The striking good looks and durability of its R3 sports bottles make planet-conscious consumers eager to share the Andriolo commitment to the 3 Rs of sustainability.

Just this year, the European Commission took steps to add authority to this movement with a proposed ban on single-use plastic products that have a readily available alternative. This cause has been a passion of Andriolo ever since the company began focusing on reusable water bottles.

In 1992, Andriolo tightened its focus on sports bottles for active lifestyles, from cyclists to hikers to the sidelines at team sporting events. Since then, bottles have become more elegant and can be seen in the car, in kids' backpacks, or even in the boardroom—wherever active people want to stay hydrated with style.

Andriolo has used Tritan in its bottles since Tritan™ from Eastman was introduced globally in 2007–2008. Tritan is a BPA-free plastic with the durability to replace hundreds of single-use disposable bottles. It also lets Andriolo offer a wide spectrum of vibrant, on-trend colors and glasslike transparency that can withstand hundreds of dishwasher cycles.

"We began using Tritan for our customers who wanted a quality refillable bottle without the undesirable taste and odor they often experienced with polypropylene squeeze bottles," says Anna Andriolo, the company's manager. "These customers quickly discovered that the rigid ruggedness of Tritan also gave them greater durability."

Andriolo continues to discover new paths for their R3 bottles, including the bullet-shaped Frost and the innovative surface features of the Bubble line.

"With these R3 bottles, we help consumers save the planet one bottle at a time," says Andriolo. "They give consumers high-quality sustainable bottles that can stand up to everyday use—with the durable beauty that users are proud to use every day."

*Rugged R3 sports bottles made with Tritan™ from Eastman come in 7 models in a variety of sizes and colors to match your everyday active lifestyle.*
