EASTMAN

Blending up value

Breville chooses Eastman Tritan™ copolyester for their innovative Hemisphere Control blender.

Smoothies have never been this creamy! Breville has perfected the blending experience by introducing their new Hemisphere Control blender. This clever blender draws down what's on top with its unique blade design and high torque motor, creating a smoother smoothie. The 750-watt blender features illuminated 5-speed control buttons and pulse action, ensuring the right speed is maintained for improved blending results. Crafted with Eastman Tritan™ copolyester, the 48-ounce jug is BPA-free and retains excellent clarity after numerous dishwasher cycles. The contoured bowl design also minimizes food traps for easier cleaning.

The Breville Hemisphere Control blender is available in three stylish colors: cranberry red, black sesame, and stainless steel.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.
