

Amazing—What goes around in Vegas

Eastman Spectar™ copolyester used in sculptural art by Design Solutions

When charged with creating a grand-scale holiday display for Crystals in CityCenter, Las Vegas, the renowned Stephen Stefanou of Dallas-based Design Solutions relied on the material he knew would be optimal for the job. The brilliant installations of giant twisters, resembling modernistic candy canes, were hand formed using Eastman Spectar™ copolyester. Stefanou drew from previous experience in which he used Spectar in other high profile installations. “I was more comfortable with Spectar because of temperature and memory-forming capabilities,” says Stefanou, who admits, “Part of my formula is to make things as complicated as possible.”

Kinetic Twisters made of Eastman Spectar™ copolyester sparkle at the Crystals in CityCenter, Las Vegas.
