

Custom home décor installations

The Intertwined Bowls combine creative thinking, technical application, and Eastman Spectar™ copolyester

Designer Brooke M. Davis says it best, “An object should beg to be discovered,” and with the help of Eastman Spectar™ copolyester, she created the Intertwined Bowls that do just that. By combining creativity, technical application, and the versatility of Spectar, Davis was able to craft a decorative piece that was sure to last forever.

“Designers are more likely to see the full potential of a material because we don’t like the constraints of limiting ourselves to any one product category,” says Davis. “Spectar is perfect for the home décor world. It has all the clarity and grace of glass with the added benefit of durability.”

With clarity, a glasslike look and durability, Eastman Spectar™ copolyester is perfect for the Intertwined Bowls.
