# Value—pour it on

*Service Ideas chooses Eastman Tritan™ copolyester for product safety and sleek style.*

Service Ideas is adding value to their product line by producing a 3-gallon beverage dispenser that is as stylish as it is durable. Manufactured with a unique balance of processing and performance properties, this dispenser, crafted with Eastman Tritan, is dishwasher safe and offers a BPA free alternative as compared to other plastics. The toughness of Tritan adds durability to items that face repeated use without a hiccup. At 8.25 inches wide, this rectangular dispenser is a space-saving solution that also features an infuser tube for drink customization and an ice tube that cools without diluting.
