EASTMAN

Toughness for little tykes

Zak Designs chooses Eastman Tritan™ copolyester for their HydroCanteen water bottles.

Zak Designs recently released a line of HydroCanteens made with BPA-free Eastman Tritan™ copolyester, creating a fun—yet safe—way for kids to enjoy their favorite beverage.

Kids will want these 14-ounce bottles because they feature popular cartoon and movie characters, made possible by the excellent decorability of Tritan, along with an easy flip-up spout and detachable straw. Parents will appreciate HydroCanteens for many more reasons, such as a lightweight, shatterproof construction thanks to the toughness of Tritan along with the perks of stain and odor resistance and unmatched dishwasher durability. Eastman Tritan™ copolyester gives parents the convenience they've been craving and gives kids a fun way to stay hydrated.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.
