RE: Revised Operable Unit 4 Feasibility Study

Anniston PCB Site (Docket No. I:02-cv-749-KOB)

Anniston, Alabama

Dear Ms. Langston Scully:

Attached please find the revised Operable Unit 4 Feasibility Study (OU-4 FS) for the Anniston PCB Site (the Site). The revised OU-4 FS was prepared by Pharmacia LLC/Solutia Inc. (P/S) and is being submitted to the United States Environmental Protection Agency (USEPA) for review and approval. The revised OU-4 FS was developed in accordance with the requirements of the revised 2003 Partial Consent Decree for the Site and includes updates to address USEPA's comments on the April 26, 2022, version of the OU-4 FS, which were received by P/S on December 1, 2022.

The USEPA letter dated December 1, 2022, also provided an extension in the schedule to prepare the revised OU-4 FS that corresponds with today's submittal date of May 1, 2023. A response to comments matrix that provides individual responses to USEPA's comments also accompanies the revised OU-4 FS.

Please contact me directly with any questions.

Sincerely,

E. Gayle Macolly

Principal Remediation Manager, Major Projects

Solutia Inc.
