

Eastman's certification of kosher products

Eastman produces a wide variety of kosher products at its manufacturing plants. Subject to regulatory restrictions, these kosher products may be used in foods, flavors and fragrances, pharmaceuticals, dietary supplements, plastic processing, and food packaging.

All kosher products produced by Eastman are manufactured under the supervision of Rabbi Avraham S. Cohen in full accordance with Jewish dietary laws. Rabbi Avraham S. Cohen assumed this responsibility from his father, Rabbi Solomon D.

Cohen, who supervised kosher production at Eastman for more than 40 years. Rabbinical associations worldwide accept his certification. This publication contains a letter of kosher and pareve certification that includes a complete list of kosher and pareve products produced by Eastman.

Customers with specific questions may contact Rabbi Avraham S. Cohen at the address shown at the top of page 2.

To whom it may concern,

All products listed are kosher and pareve, including Passover where indicated, provided they are specified as kosher when ordered and the container is properly sealed. For packaged goods, the Eastman product label must contain the word kosher in the product description, and bulk chemicals must contain the word kosher in the product description on the bill of lading to ensure kosher status of the material. Kosher status is only guaranteed when the product is ordered as kosher. This is to certify that the following Eastman products are manufactured under my supervision in full accordance with Jewish dietary laws. This Kashruth certificate is valid through December 31, 2023, and is subject to renewal at that time.

Product	Location	Kosher/ pareve	Includes Passover
Eastman acetaldehyde, kosher ¹	Longview, TX	Yes	Yes
Eastman acetic anhydride, kosher ¹	Kingsport, TN	Yes	Yes
