

High-performance, recyclable flexible paper packaging

Designed for medium-high barrier needs

Paper
UPM Solide™ Lucent — excellent foundation for achieving optimum barrier properties

Adhesive

Aluminum metallization layer

Release coating
Solus™ — enables high-density, smooth metallized layer to impart medium-high barrier layer onto paper

Heat seal layer
PBS and Solus™ — compostable extrusion coating delivers strong heat seal at low coating weights, enhancing barrier protection and design flexibility while enabling recyclability.

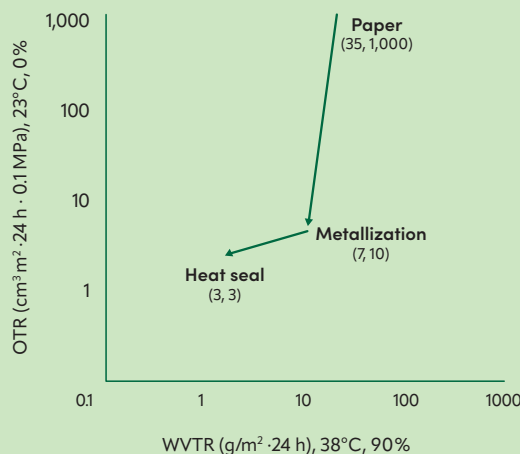

Tested to CEPI Part I v3 (Feb. 2025)

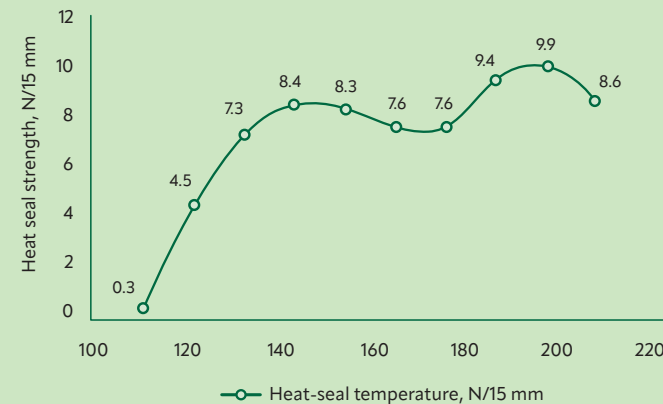

Benefits

- High barrier for extended shelf life
- Food-contact grease barrier
- Recyclable in standard paper mills
- Improved heat-seal strength and processing flexibility

Enhanced barrier performance to meet snack and confectionery package needs

Superior heat seal strength to allow safe product handling and storage

Under regulations administered by the U.S. Food and Drug Administration (FDA), this product may lawfully be used in certain food contact applications.
