# Tritan™ Renew from Eastman

Elevate the sustainability of your commercial drinkware.

## Renew your commercial drinkware.

Eastman Tritan™ Renew copolyester is the trusted solution for commercial drinkware that exceeds performance expectations without compromising design aesthetics. Brands and restaurants can bring more of the most innovative products to consumers with 50% certified recycled content.\* Elevate your dining experience through aesthetics and performance with Tritan Renew.

## Premium performance

- Clarity and brilliance — Dazzle diners with glasslike clarity and gloss. Tritan Renew feels as beautiful as it looks through hundreds of dishwashing cycles and uses.
- Shatter resistance — Use it again and again. Tritan Renew is strong enough for repeated use and is the industry standard for shatter resistance. It even bounces if dropped on concrete.
- Design aesthetics — Create your ideal brand aesthetic. Drinkware made with Tritan Renew comes in all shapes, sizes and colors, so you can have the same great style as glassware.
- Odor and stain resistance — Unlike other materials, Tritan Renew prevents odors, flavor carryover and stains, so your customers experience only the intended tastes and smells.
- Safety from chemicals — Tritan Renew is free of all bisphenols, including BPA.
- Lightweight — Your staff will thank you. Tritan Renew is lighter than glass, so carrying drinkware is easy.

## Industry excellence

- Commercial dishwasher safe — Tritan Renew maintains its clarity and durability, despite exposure to harsh commercial detergents, longer than any competing plastics.
- Temperature safe — Tritan Renew can withstand a full range of temperatures, from freezing to boiling.
- Cost savings — Lower your replacement costs with durable Tritan Renew for commercial use.

## Good for you and the planet

This remarkable copolyester is made possible by Eastman's molecular recycling technology that transforms plastic waste into durable materials. This process breaks down hard-to-recycle plastic into its basic molecular building blocks, which allows plastic to be recycled again and again without degrading in quality.

Tritan Renew provides our manufacturing partners with a material made with 50% certified recycled content,\* offsetting the use of fossil fuels and lowering greenhouse gas emissions. Take your restaurant or brand's sustainability story to the next level. Meet your sustainability goals with drinkware that's good for you, your customers and the planet.

*\*Recycled content is certified through ISCC mass balance allocation.*
