

Invest in value and offer sparks of joy.

Naia™ Renew cellulose acetate fibers for knitwear

Knitwear is even cozier with Naia™ Renew, which delivers supreme softness and ease of care to the unique blends your customers crave. Unlock the possibilities of cellulose acetate fibers for knitwear today.

Spark joy.

Versatile blends for every season

Invest in value.

Soft comfort and easy care for years to come

Fuse sustainability with style.

Traceability you trust without compromise

Blend sparks of joy into every season.

Wool, cotton, silk, polyester and more — Naia™ Renew knitwear goes beyond a single season. Our cellulose acetate fibers blend and spin with a wide variety of yarns and can be used in cotton spinning, semi-worsted and worsted wool processes. With the ultimate blend of sustainability and style, Naia™ Renew is perfect for cross-seasonal designs that are cozy and chic any time of year.

Cotton spinning process

Semi-worsted and woolen process

Worsted wool process

Knitwear you'll want to wear for years

Naia™ Renew is as durable as it is supremely soft. Our sustainable fibers maintain good dimensional stability and shape retention after multiple washes, so your knitwear lasts.

| Naia™ blends with sweater yarns | Target applications | Benefits |
|------------------------------------|--|--|
| 100% Naia™ Renew cellulosic fibers | Basic roll neck; crew neck; twin sets; and cardigans | Wearing comfort; easy care; excellent pilling performance |
| Modal or cotton | Trans-seasonal sweaters or layering items | Plant-based; comfortable without compromising on sustainability; soft touch and easy care |
| Recycled polyester or acrylic | Holiday season; sports sweaters | Knitwear with natural appearance; premier-quality look and soft comfort; cost effective |
| Merino or RWS wool | Next-to-skin designs and layering items | Replacing 100% merino wool with cost-effective Naia™/wool blend; lower carbon footprint; no compromise on luxurious look with soft loft hand |
| Tri-content blends, fancy yarns | Trendy items | Adding Naia™ for softer hand with quality look and sustainability story |
| Silk | Next-to-skin designs for spring/summer | Natural breathability, luxury and soft touch; easy care |
| Linen or ramie | Next-to-skin designs for spring/summer | Plant-based; natural breathability with soft hand |

Sustainable style, your way
