# EASTMAN

## Just the right mix

*Eastman Tritan™ copolyester makes Ninja® on-the-go blender cups tough and resistant to stains and odors.*

The Ninja® Kitchen System Pulse™, from SharkNinja Operating, LLC, is a state-of-the-art blender system that offers on-the-go mixing in convenient 16-ounce blending cups made with Eastman Tritan™ copolyester. BPA-free Tritan offers toughness, clarity, safety, and dishwasher durability—properties that are especially important for single-serve cups designed for everyday use. Tritan allows the cups to withstand repeated dishwashing without cracking or crazing while providing the stain and odor resistance to chop garlic one minute and make smoothies the next. Plus, the experts at Eastman provided support and guidance during the injection molding process. With the toughness of Tritan, these blending cups are ready for the rigors of a busy life.

**For more information on Eastman Tritan™ copolyester, visit [www.eastman.com/tritan](http://www.eastman.com/tritan).**

*With high-tech blade technology and cups made from Eastman Tritan™ copolyester, the Ninja makes blending on the go a breeze.*
