EASTMAN

A perfect combination

New kitchen appliances from Wolfgang Puck use Eastman Tritan™ copolyester.

World-renowned chef Wolfgang Puck, through his W.P. Appliances signature line, has introduced two professional-quality kitchen aids made of BPA-free Eastman Tritan™ copolyester: the Electric Power Blender and the 3-Tier Rapid Food Steamer. The top-of-the-line blender and steamer combine the superior qualities of Tritan with smart, sturdy construction. The glasslike clarity and toughness of Tritan ensure both can stand up to everyday use and repeated dishwashing, which has W.P. impressed.

"We plan to migrate additional products in our product line to Eastman Tritan™ copolyester with the goal of using the material for 100% of the line," said Mike Sanseverino, executive vice president, W.P. Appliances, Inc.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

Wolfgang Puck blender and steamer use Eastman Tritan™ copolyester because of its toughness, durability, and clarity.
