EASTMAN

Smart shape

Baby Dipper uses Eastman Tritan™ copolyester for toddler tableware.

Baby Dipper, LLC simplifies mealtime for parents with its clever Baby Dipper bowl designed by a busy mom. The triangular bowl has a nonslip base to prevent movement and spills, and its contoured interior helps guide food to fork for easy feeding. Made of Eastman Tritan™ copolyester, Baby Dipper meets the growing consumer demand for BPA-free products that offer superior clarity, dishwasher durability, and toughness.

"Being a mother of two sets of young twins, I understand why parents want safe and smart infant care products," said Barbara Schantz, president and CEO of Baby Dipper, LLC. "By using Eastman Tritan for the development of the Baby Dipper bowl, we can offer parents a high quality, user-friendly feeding product that fits into their everyday lives."

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

The triangular-shaped Baby Dipper bowl, made of Eastman Tritan™ copolyester, comes in a three-piece set with a matching spoon and fork.
