EASTMAN

Serving up something special

Cox Culinary Emporium uses Eastman Tritan™ copolyester for its line of elegant serveware.

Designed with entertaining in mind, Cox Culinary Emporium's (CCE) innovative serveware line can be used at backyard pool parties or cocktail-hour gatherings without fear of breakage. The line features four styles of glasses that fit securely into matching plates, allowing users to carry food and drink while keeping one hand free. The serveware gets its durability and toughness from Eastman Tritan™ copolyester.

CCE wanted a BPA-free material to replace polycarbonate for its serving sets and chose Tritan because it created a more durable, clear product that stands up to continuous dishwashing. Thanks to the heat and chemical resistance of Tritan, CCE is able to market the sets to both commercial and retail markets.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.
