EASTMAN

Easy entertaining

Creative Bath™ chooses Eastman Tritan™ copolyester for crystal clear beverage dispenser.

Creative Bath Products, Inc., a market leader and manufacturer of decorative home and storage products, introduces a lightweight, durable beverage dispenser made of Eastman Tritan™ copolyester in its Creative Ware™ collection. The Creative Bath design team wanted an easy-to-handle, BPA-free product for use indoors and out and switched from polycarbonate to Tritan because of its crystal clarity and stain resistance. Excellent durability is a hallmark of the Creative Ware line, and consumers will not have to worry about the product cracking, crazing, or deforming after repeated washings. "For our customers who frequently host gatherings and are busy entertaining guests, it is essential that our products provide ease of use and peace of mind," said Bob Weiss, chief operating officer, Creative Bath.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

Enjoy ease of use and peace of mind when entertaining with the Creative Ware drink dispenser made of crystal clear Eastman Tritan™ copolyester.
