EASTMAN

Sealing in freshness

Contigo chooses Eastman Tritan™ copolyester for its 72-ounce leakproof Autoseal Pitcher.

Specializing in protecting customers from on-the-go messes, Contigo created the first pitcher that automatically seals in freshness between uses while preventing spills between pours! The unique quick release lid allows easy access for stirring and filling to create a customizable refreshment time after time. The pitcher's simple and elegant design sits perfectly in your fridge and on your table for any get together! Crafted from Tritan, the Autoseal Pitcher is sleek, yet strong—durable enough to withstand numerous dishwashing cycles while resisting stains and odors.

For more information on Eastman Tritan™ copolyester, visit www.eastman.com/tritan.

The Autoseal Pitcher made of Eastman Tritan™ copolyester also includes an infuser stick to enhance your drink and an ice core to keep things cool.
