

Eastman 168™ non-phthalate plasticizer

The non-phthalate alternative for childcare articles and toys

Where safety and innovation come together

Eastman was among the first companies to develop alternative plasticizers for making PVC flexible. In fact, Eastman 168™ non-phthalate plasticizer has been marketed and safely used for more than 30 years, with proven performance in a wide variety of flexible PVC applications.

An extensive toxicological profile demonstrates that Eastman 168™ non-phthalate plasticizer is suitable for use in toys, childcare articles, food contact materials, and medical devices. Therefore, many leading brand owners and retailers of toys and childcare articles worldwide specify Eastman 168.

Did you know?

Eastman 168™ non-phthalate plasticizer

- Is an alternative that can be used in most flexible vinyl applications.
 - Has been manufactured, marketed, and used safely for more than 30 years.
 - Is an easy alternative to use without significant changes to formulations or processing conditions.
